"Asya from ABL Photography has been taking photographs of our children since 2009 and is absolutely fantastic. The children are put at ease straight away with Asya making them laugh and generally having fun which means the photographs are wonderful. The parents always love the photographs and we have many people ordering each time. Asya has the photograph proofs ready for the parents and orders are returned on time. I would recommend Asya every time." Manager of the Little Acorns Pre-School, Twyford

## WHY WORK WITH ME?

I've been doing nursery photography for over 10 years and absolutely love it. My positive energy and unique style always bring out the best smiles in children of all ages. Parents love photographs of their children taken by me. Photographs can be done either in a pop-up studio or outdoors with natural light.

## NURSERY AND PRE-SCHOOL PHOTOGRAPHY SERVICES

*What would typically happen in a nursery shoot?*

We will agree on the date and time for the shoot in advance. It could be once or twice a year. I will photograph children one by one until all of them are covered. Siblings sessions can also be arranged for children attending different schools.

Approximately 3 weeks after the shoot, proof cards will be delivered to your establishment.

Parents will have a choice to place orders via envelopes or on-line. They will have one to two weeks for placing orders with free delivery to the pre-school/nursery. After that they can still place orders, but would need to pay delivery charges. There are no delivery charges for digital images and they can be ordered at any time.

All completed packs/orders will be delivered to your establishment within a week after the ordering deadline.

Parents can contact me at any time if they have any questions.

## SAMPLE PROOF CARD

Below is an example of a proof card that parents will get.  
Each child will have at least 4 different poses on the proof card and up to ten photographs available to view on-line.
